

Lake Zurich Chamber of Commerce  
Richard Chay's Closing Comments

In 1997, 1999, and 2001 candidates for village trustee ran unopposed. As you see in this election, there are seven people running. I believe this reflects what village residents have told me. They are looking for the new ideas for the future of Deer Park.

The residents have been telling me they want three things addressed:

The deplorable condition of the Deer Park roads.

The massive amount of money being spent on the barn at Vehe Farm.

The state of the village financials.

When I told Deer Park Plan Commission and Zoning Board of Appeals members my ideas for the future of the village, they gladly signed my petition to get me on the ballot.

I have more Plan Commission and ZBA signatures than any other candidate. Why?

Because they know me. They know that I have an interest in the important work they do.

Except for Maureen Pratcher, who was an employee and was required to attend meetings, I have attended more ZBA meetings and Plan Commission meetings than any other candidate for village trustee.

Plan Commission and ZBA members liked my common sense approach, sound financial thinking, my extensive business experience and my ability to devote **full time** to the job of trustee.

You have 3 votes to cast on April 17, I am asking for one of them.
